## **DETAILED ACTION**

This communication is responsive to Amendment D, Filed 03/19/04.

Claims 9, 18 and 20-30 are pending in this application. In the Amendment C, claims 20-30 were amended. This action is made Final.

### ***Information Disclosure Statement***

The Dayco statement regarding related applications in the information disclosure statement filed 12/01/03 is not proper. The applicant is required to list the serial numbers of the related applications.

### ***Claim Rejections - 35 USC § 112***

Claims 20-30 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 20 and 30 require “a plurality of non-temporal preferences”. However, there is a lack of written description in the specification to clearly describe the subject matter. It appears in the specification that the plurality preferences are either directly or indirectly related to time in order for a user to make financial decision by negotiating tradeoffs between various personal financial goals. The examiner assumes that the application meant “a plurality of references” and the following rejections are based on that assumption.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 20-30 are rejected under 35 U.S.C. 102(e) as being anticipated by Ferguson et al. (“Ferguson”, U.S. Pat. No. 6,064,984).

Per claim 20, Ferguson teaches a method for providing a user interface to enable a user to make financial decisions by negotiating tradeoffs between personal financial goals, comprising:

(a) displaying a plurality of images in a frame, each of the images representing a goal, wherein each goal includes at least one planned user expenditure (Figs.6 and 14; each image comprises of a plan event icon with one or more additional “arms” (elements 120a, 126, and 124 as shown in Fig. 6); col. 7, line 64-67);

(b) permitting a user to select from one of the images in the frame (col. 8, lines 47-51; col. 8, lines 60-64);;

(c) displaying a plurality of preferences related to the goal represented by the selected image (fig. 7A-7D; col. 9, line 57-col. 10, line 10);

Art Unit: 2174

- (d) permitting the user to adjust at least one of the preferences (fig. 7A-7D; col. 8, lines 65-68; col. 9, line 57-col. 10, line 10); and
- (e) altering the appearance of one or more of the images in the frame based on the impact of the adjusted preferences (col. 9, lines 45-56; col. 10, lines 43-51).

Per claim 21, Ferguson teaches a method as recited in claim 20 further comprising:  
requesting personal information on the user, receiving the requested personal  
information, and generating a personal profile corresponding to the adjusted preferences and the  
personal information (col. 10, lines 52-68).

Per claim 22, Ferguson teaches a method as recited in claim 21 further comprising:  
displaying a selectable link to a personal profile frame, and displaying the personal  
profile within the personal profile frame upon selection of the link (figs. 8-13; col. 10, lines 52-  
68; col. 11, lines 30-40).

Per claim 23, Ferguson teaches a method as recited in claim 20 further comprising:  
displaying a time indicia representing a time expectation for the amount of time expected  
for achieving one goal represented by the selected image, permitting the user to adjust the time  
indicia; and displaying the effect of the adjustment (col. 9, lines 25-35; col. 9, lines 57-col. 10,  
lines 6).

Per claim 24, Ferguson teaches a method as recited in claim 20 further comprising:

displaying a quality indicia representing a degree of quality for the goal represented by the selected image, permitting the user to adjust the quality indicia, and displaying the effect of the adjustment (col. 10, lines 38-51; col. 11, lines 41-61).

Per claim 25, Ferguson teaches a method as recited in claim 24 wherein an appearance of the selected image is altered in relation to the adjustment of the quality indicia with respect to quality for the goal (col. 9, lines 45-55; col. 10, lines 43-51).

Per claim 26, Ferguson teaches a method as recited in claim 20 further comprising:  
displaying a degree of favoritism indicia representing the degree of favoritism between time and quality with respect to the goal represented by the selected image; and permitting the user to adjust degree of favoritism indicia (col. 10, lines 38-51; col. 11, lines 41-61).

Per claim 27, Ferguson teaches a method as recited in claim 20 further comprising:  
displaying a selectable link to a financial assumptions frame, and upon selection of the link, displaying the financial assumptions frame populated by data representing financial assumptions (col. 10, lines 52-61; col. 11, lines 30-40).

Per claim 28, Ferguson teaches a method as recited in claim 20 further comprising:  
displaying a summary of impacts on achieving the goals resulting from the adjusted preferences (col. 10, lines 52-62).

Per claim 29, Ferguson teaches a method as recited in claim 20 wherein the images representing goals include at least one of: a first image representing a horse goal, a second image representing a vehicle goal, a third image representing a monthly allowance and savings goal, a fourth image representing a planned furniture expenses goal, a fifth image representing a planned appliance expenses goal, a sixth image representing a vacation goal, and a seventh image representing a children's education goal (col. 7, line 63- col. 8, line 6).

Claim 30 is rejected under the same rationale as claim 20.

***Allowable Subject Matter***

Claims 9 and 18 are allowed.

***Response to Arguments***

Applicants' arguments in the Amendment A have been fully considered but are not persuasive.

Applicant's primary argument is that Ferguson does not teach "a plurality of non-temporal preferences". However, there is a lack of written description in the specification to clearly describe the subject matter. It appears in the specification that the plurality preferences are either directly or indirectly related to time in order for a user to make financial decision by negotiating tradeoffs between various personal financial goals. The examiner assumes that the application meant "a plurality of references" and the rejections are based on that assumption as described above.

***Inquiries***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thanh T. Vu whose telephone number is (703)-308-9119. The examiner can normally be reached on Mon-Thur and every other Fri 8:30 AM - 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kristine L. Kincaid can be reached on (703) 308-0640. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 305-3900.
